CAPABILITIES HIGHLIGHTS

COMPANY OVERVIEW

Cleaning Innovations was established to provide high-quality janitorial services for banking institutions, commercial realty companies, property managers, government agencies, medical offices, laboratories, and office facilities. Cleaning Innovations is a woman-owned business that serves Raleigh and Wilmington, NC. Our mission is to lower the spread of germs, provide excellent service, and establish a safe & clean workplace just for you.

DIFFERENTIATORS

- Our cleaning training ensures all staff are trained and knowledgeable about each facility to ensure that the facility is maintained properly and the spread of germs is reduced.
- We only use cleaning products on the EPA D and N List that kill all bacteria, diseases, and mold.
- We use color-coded towels and mops to prevent cross-contamination.
- We don't subcontract our work.
- Quality inspection: we have inspectors who provide inspections to ensure that we maintain our high-quality service
- Our Rapid Response: you are guaranteed to hear from us within 2 hours (your email, phone call, or having one of our representatives at your facility)
